Winemaking

Cannonau is an extremely late-ripening grape variety. The grapes are therefore only hand-harvested during the first 10 days of October. They are macerated and fermented, and agedin a steel tank for ten months.

Our tasting note

An intense ruby red colour in the glass with garnet red highlights. On the nose, a splendid fragrance of ripe red fruits, such as raspberries and cherries. On the palate, balsamic notes and aromas of myrtle and juniper. Very well-structured and an extremely succulent after-taste.
