## Italesse S.r.l.

Founded in 1979 by Claudio Barducci, Italesse quickly established itself as a preferred partner for renowned producers of wine, champagne, and spirits. The brand stood out for its professional products combining design and functionality, gaining rapid popularity, especially among hotels, resorts, and Michelin-starred restaurants. Today, Italesse is present in over 80 countries, including traditional wine regions such as Italy, France, and Spain, as well as markets with a strong focus on hospitality in the Middle East and Far East. With an annual production of over 3 million glasses, Italesse is a leader in wine-oriented glassware and a reference brand for exclusive producers worldwide. The company is committed to ethical principles and environmental respect, which earned it the EcoVadis Silver Medal, an international sustainability award, in 2019.
